NOTICE: If a Federal Sales Tax is passed between catalog printing time and the time you order, add it to your remittance, please.

Dear Friends:

I wish I could write each customer and friend of ours a personal letter at least once a year. Since I obviously can't do this, I hope this letter will do the job. We especially want to thank the thousands of you, all over the United States, who have honored us with orders. In doing this you have placed your confidence in our organization. We cherish this trust, and will do our best to continue to merit this confidence.

Over the past 36 years thousands and thousands of letters have told us how the seeds, plants and bulbs we've shipped have grown and thrived beyond all expectations. This year, as always, we pride ourselves in offering top quality merchandise at reasonable prices.

As this is written, we believe we have ample stocks of everything for the season to come. But, experience has taught us that, no matter what we do, shortages will develop in some items as the season advances. Try as we do, we never seem to be able to come out even on all items. For this reason, we urge you to order early, while stocks are still complete.

In addition, we show our appreciation of early orders by including free premiums with them, You'll find Garden Seed premiums listed on page 35, Nursery premiums on page 38. Read about them there, and be sure to include your choice with your order.

You'll want the children in the family to see the special sheet enclosed in this catalog. It tells about our Boy and Girl Seed Collections, and pictures some of the special prizes we give young salesmen (fishing sets, knives, cameras, batons, uku-leles, basket balls, binoculars, balls and gloves, archery sets, air rifles, footballs, skates, table tennis sets, watches). Also, it tells of our special Boy and Girl contest prizes: five Schwinn Traveler bikes and \$50 in cash. The seed collections are easy to sell, and they'll enjoy "being in business" and earning cash and prizes.

Again, thank you for your fine orders. We're all looking forward to serving you again soon. On behalf of all of us here at the May Seed Company, I wish you a happy and prosperous 1956.

Sincerely

Edward May

GERMAYTREETED AND TRIPLE TESTED

The ideal combination for Vegetable Garden Success!

Our Garden Seed program is designed with one thought in mind: to bring our customers the finest seeds we can. We've developed two important steps toward that end:

First, TRIPLE - TESTING. Earl May garden seeds are tested in our laboratories, where trained experts test for purity and germination, using scientifically-designed equipment. Next, they're tested in our 76-Acre Test Gardens, where both new and old established strains and varieties are grown, measured, weighed and accurate records are kept as to length of maturity, reactions to climate, productivity, characteristics. Then, the vegetables themselves are tested on our tables: our families pass on flavor and texture. The varieties that rank high in these tests are offered for sale to our customers.

The second part of our program is the GerMAY-treeted process; a scientific treatment that protects seeds against destructive soil-borne organisms. It promotes better germination under adverse soil and weather conditions. The GerMAY-treeted process is transparent . . . does not change the color of the seed. No poisonous metallic compounds are used in the process. Tests have proved GerMAYtreeted is entirely non-toxic and non-irritating.

We have marked the GerMAYtreeted vegetables on the following pages. Look for the GerMAYtreeted symbol: another example of our continuing research to bring you better things for yard and garden.

The hybrid variety improves that fine flavor, nearly doubles the yield and brings a hybrid vigor highly resistant to corn diseases. The 8 to 10 inch ears are snow white and packed tightly with tender, delicious kernels. You don't know how good Country Gentleman can be until you've eaten this new, vastly improved hybrid.

Large Pkt. 20c; $\frac{1}{2}$ lb. 48c; lb. 80c; 2 lbs. \$1.40, Postpaid.

OPEN POLLINATED SWEET CORNS

154. STOWELL'S EVERGREEN. (91 days.) An improved strain. It's fine for roasting ears, for drying, and for canning and it has the largest ear, deepest kernel. The corn remains long in the milk before ripening up which lengthens its season for your table use.

Large Pkt. 15c; $\frac{1}{2}$ ib. 40c; ib. 65c; 2 ibs. \$1.15, Postpaid.

144. GOLDEN BANTAM. (77 days.) Everybody likes Golden Bantam. Many people won't plant anything else. The flavor is delicious, sugar content high. Kernels are tender. Very wide and deep, cob small.

Large Pkt. 15; 1/2 lb. 40c; lb. 65c; 2 lbs. \$1.15, Postpaid.

152. COUNTRY GENTLEMAN. (Shoe Peg.) (93 days.) Long, narrow, pointed kernels and irregular on the cob. It's a dandy! From 2 to 3 large ears on a stalk. Packed with long, white kernels. Sweet, tender and fine flavored.

Large Pkt. 15; 1/2 lb. 40c; lb. 65c; 2 lbs. \$1.15, Postpaid.

SHOPPING BY MAIL

... HOW TO DO IT ... WHY TO DO IT!

It's smart (and fun) to shop by mail

Isn't this the ideal way to shop? You sit in your easy mair, comfortable, relaxed, unhurried. You make your shopping list at your leisure . . . adding to it as you wish. Complete descriptions of the plants are at your fingertips, and so are pictures of the tree, plants, vegetables and flowers: the end products of your

Described and pictured in this catalog is a much wider variety of plants and seeds than most planting stores can carry in stock. Here you can find several varieties of 'most anything you might want to plant. (Earl May stores, because of huge central warehouses and tremendous buying power, can offer these wide selections. Varieties not in stock can be ordered for you from this catalog.)

You'll find new varieties listed here, usually long before they're available from local dealers. Plant explorations and breeding is an expensive business, and small operators simply can't afford it!

And don't forget premiums! We give you extra gifts as appreciation for early orders and larger orders. You'll find them described on pages 35 and 38.

Last but not least, you're dealing with a dependable, trustworthy company! We've been in business for over 36 years, and we intend to be here for a long time to come. Our descriptions and guarantees are in writing . . . and we stand behind them. We want to be your friends for years to come, not just long enough to get your money and move on. We want you to feel free to write us for advice, or to discuss your planting problems. If you live near an Earl May store, drop in to visit with the friendly folks there. If one isn't handy, consider us your "neighbors," and write us often.

Here's How You Can Help Us Help You,

Here are ten rules to follow when ordering seeds, plants and merchandise by mail. We can serve you better if you follow them when you can.

- 1. Always use the same name in ordering-not "Mrs. John Smith" one time and "Mary Smith" the next. It's better to include your middle initial, too. This uniformity enables us to give you better service, eliminate errors.
- 2. Print or write your name and complete address very plainly. You'd be surprised how many folks leave their name off the order entirely (and many more orders are delayed because of the time needed to decipher handwriting).
- 3. Order items by catalog number, variety name, and quantity desired.
- 4. Total order sheet correctly (check to see if you're entitled to a free premium!)
- 5. Send payment by check or money order. Stamps and cash are too risky.
- 6. Don't order C.O.D. It costs you more, since you must pay postage and C.O.D. charges. C.O.D. might delay delivery, too, so you're better off sending your money with your order.
- 7. Send the right check with the right order (there's bound to be a delay if we get a check . . . or order . . . you intended to send to a book club of department store).
- 8. This is important! Ask questions and write letters on separate sheets of paper, and not on your order. Then, we can be filling your order while the letter is being answered.
- 9. Mail your orders as early as possible to avoid delays at peak rush periods (and to qualify for early order premiums).
- 10. We wish we were perfect, but, in handling millions of orders each year, we occasionally err. When writing about a mistake or a delayed order, please give the order number, the date it was sent, the amount, and the exact items ordered.

Thank you! We'll continue to do our best to serve you quickly and well, and to handle each order exactly as you'd like us to.

30 ONIONS TO THE BUSHEL!

We thought a bushel of 41 onions weighing 50 lbs. was a good record . . . until George Mumby of Peck, Michigan sent a picture of 30 onions overflowing a bushel basket . . . and weighing 51 pounds! Both records came from our Yellow Sweet Spanish plants, and thousands of our customers get sensational yields each year. But order early-they must be planted early to make the big size.

Easy to plant. Easy to grow. And they make tremendous yields of big, mild, sweet onions.

Once you've seen and eaten fine big onions grown from plants, you'll always plant them. Light frosts and freezes, even a light snow, won't hurt them. So, you can put them out extra early to get a full growing season. Plant them about 11/2 inches apart. The first time you thin them out for "green" onions. The next thinning for stewed onions. Then, let the rest go on to make you plenty for fall and winter use. We have the two best-by-test varieties: WHITE BERMUDA, the mildest you've ever eaten, and YELLOW SWEET SPANISH, a wonderfully mild onion that keeps for months! Both must be planted early if you want the most and best for your money. So, order early. We'll ship at the right time.

CULTURE: One ounce of onion seed will plant 150 feet of row. It takes 5 to 6 lbs. for an acre. One online of ontoin seed with plant about 25 feet. Sow onions early. They like rich, wel drained soil, slightly sandy. Thin to 3 or 4 inches apart in the rows for best results.

Jhis Year, Plant SEED POTATO "EYES"

The greatest improvement since seed potato certification! It's no longer necessary to handle heavy potato sacks... or bother with cutting the potatoes up. We've saved you this labor by cutting the fertile eye from fresh, clean, Certified Northern Grown Seed Potatoes. They're light (so you pay no shipping charges on heavy potatoes), perfectly clean, and all ready to plant.

Our customers are reporting perfect results with these easy-to-plant eyes. (Clifford Junge of Keystone, Iowa, says the eyes produced as much or more than he got from "cut-up" potatoes, and the quality was really good). Last year we harvested 138 pounds (almost 2-1/3 bushels) of cobblers from 100 eyes.

We guarantee delivery in perfect planting condition (but we can't guarantee we'll have enough to go around, so order early).

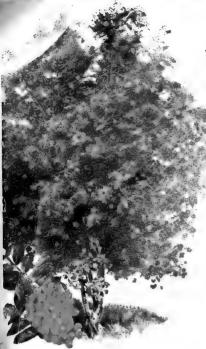

Choose from these three favorites:

- 16. Early Ohio
- 17. Red Pontiac
- 18. Cobbler

Thrifty "PLUM ORCHARD" Collection

The Plum is our hardiest, most dependable fruit. But remember, plums like company of their own kind. They need company, too, because it is cross pollenization that makes great yields. Every twig becomes loaded, the branches bend with the weight. That's the result of planting several varieties, including a good pollenizer. We have selected 3 of the finest and one of them (Toka) is the extra pollenizer you need. Plant them and have lots of luscious, juicy fruit.
